

CYC Standard Data format

CYC Data is the output of the Cycle Counting module.

File naming conventions

- File: CYC_{Researcher's lastname}_{date}[_{methods}].csv

with:

- date: YYYY-MM (starting month of the experiment)
- methods (optional): lists the methods used successively in the different modules

CYC CSV files standards (column names must be exact) :

Encoding format: UTF-8, Separator: ',' (comma)

Variable name	Description	Symbol	Unit	Data type	Mandatory
stress_range	Stress range (= 2 * sigma_a)	delta_sigma	[MPa]	double	y
stress_mean	Mean stress	sigma_mean	[MPa]	double	y
stress_ratio	Stress ratio	R	[-]	double	y
n_cycles	Number of cycles	n		double	y
cum_n_cycles	cumulative number of cycles for a given bin of sigma_a, sigma_mean and R.			double	y
